

## SYMPOSIUM ON APPLICATIONS OF CONTEXTUAL INTEGRITY CALL FOR PARTICIPATION

We are pleased to announce the 2nd annual Symposium on Applications of Contextual Integrity, taking place August 19-20, 2019, at the University of California Berkeley. The aim of the symposium is to foster interaction among diverse communities of research and practice that use contextual integrity to reason about privacy, to design and evaluate information systems, to craft and assess regulation, and to generate formal logics for privacy. We will accept any of the following submission types:

- A 4-page position paper on work in progress (references not included in the page limit)
- An extended abstract (1-2 pages) summarizing published or mature work. Please include a short “works cited” section situating your work within it and clarifying its contribution. If your topic is entirely novel or interdisciplinary, please indicate that as well. If your abstract is accepted, you will have the option of posting the longer paper on the symposium website.
- A 1-page description of an interesting use case to be discussed at the symposium.

The workshop will not publish formal (i.e. archival) proceedings. Instead, the workshop aims to foster discussion and feedback to improve work-in-progress for subsequent publication elsewhere. With author’s permission, accepted submissions will be posted on the website, but will not be considered archival publications. Papers should be formatted using [the 2019 ACM Master Article Template](#). For LaTeX users, choose **format=sigconf**.

Submissions will be peer-reviewed by the workshop’s Program Committee and accepted based on relevance and potential to contribute to workshop discussions and goals. We encourage submissions from diverse disciplinary sources, methods, and contributions, including:

- Empirical studies (qualitative, quantitative, experimental)
- Legal, philosophical, ethical, and policy analysis
- System design and/or implementations
- Combinations of the above

Submit papers through [the submission site](#).

**Participation without submission:** If you’re interested in attending without a submission, please complete [this form](#). We will send a confirmation upon review.

### SYMPOSIUM CHAIRS:

Serge Egelman (ICSI & UC, Berkeley)  
Helen Nissenbaum (Cornell Tech)  
Yan Shvartzshnaider (NYU & Princeton)

### IMPORTANT DATES

Submissions Due: June 10  
Notifications: June 25  
Date of Symposium: August 19 - 20

### PROGRAM COMMITTEE

Sebastian Benthall (NYU)  
Louise Barkhuus (ITU Copenhagen)  
Marshini Chetty (Princeton University)  
Anupam Datta (Carnegie Mellon)  
Jake Goldenfein (Cornell Tech)  
Yafit Lev-Aretz (CUNY, Baruch College)  
Darakhshan Mir (Bucknell University)  
Kirsten Martin (GW School of Business)  
Mainack Mondal (Cornell Tech)  
Xinru Page (UC Irvine)  
Katherine J. Strandburg (NYU)  
Madelyn Sanfilippo (Princeton University)  
Luke Stark (Microsoft Research)  
Eran Toch (Tel Aviv Univ. & Cornell)  
Jessica Vitak (University of Maryland)  
Pamela Wisnieski (Univ. Central Florida)  
Primal Wijesekera (UC Berkeley)  
Ding Xiaodong (Renmin Law School)

We look forward to seeing you at the symposium!
